

FOR SYSTEMIC CATARRH

Peculiar to Summer Pe-ru-na Gives Prompt and Permanent Relief.

Clem G. Moore, Editor of the Advocate-Democrat of Crawfordville, Ga., writes the Peruna Medicine Company as follows:

"Gentlemen:—After four years of intense suffering, caused by systemic catarrh, which I contracted while editing, and traveling for my paper, I have been greatly relieved by the use of Peruna. I gave up work during these years of torture, tried various remedies and many doctors, but all the permanent relief came from the use of Peruna. My trouble was called indigestion, but it was catarrh all through my system, and a few bottles of Peruna made me feel like another person, noting the improvement after I had used the first bottle. Peruna is undoubtedly the best catarrh remedy ever compounded."—CLEM G. MOORE.

Judge Wm. T. Zenor, of Washington, D. C., writes from 213 N. Capital Street, Washington, D. C.:

"I take pleasure in saying that I can cheerfully recommend the use of Peruna as a remedy for catarrhal trouble and as a most excellent tonic for general conditions."—Wm. T. Zenor.

Mrs. Amanda Morrill, 136 Reid street, Elizabeth, N. J., writes: "I have been sick over two years with nervous prostration and general debility, and heart trouble. Have had four doctors; all said that I could not get well. I had not walked a step in nine months, suffering with partial paralysis and palpitation of the heart every other day, and had become so reduced in flesh as to be a mere skeleton weighing only 85 pounds. "Up to this date I have taken Peruna for seven months. It has saved my life

as I can safely testify. I have not felt so well in five years, having walked over one mile without ill result, and have also gained thirty pounds since commencing to take Peruna. In fact, I cannot praise it too highly."—Mrs. Amanda Morrill.

Peruna never fails to prevent systemic catarrh or nervous prostration if taken in time. Peruna is the most prompt and permanent cure for all cases of nervous prostration caused by systemic catarrh known to the medical profession. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Mines and Minerals of Arizona

YUKON MINING CLAIMS

Final Payment of Sale Made to Pittsburgh Men Yesterday.

One year ago J. H. Roberts gave to Pittsburgh men a bond on his Yukon mining property in the Black Rock district, sixteen miles east of Wickenburg, a partial payment being made at the time. Yesterday a final payment was made on the bond, the deeds were taken from escrow in this city and title passed to the Pittsburgh men.

The amount of the purchase price has not been made public, but a neat sum in cash changed hands, and Mr. Roberts also retains an interest in the property. The new owners will incorporate for the exploitation of the mine and a block of the stock will by agreement go to the seller. What the name of the new company is to be has not yet been given out.

The property consists of a group of several copper and gold claims on which considerable work has been done and lies close to the well-known Independence group. Its appearance is said to be very promising by mining men who have visited it. There is sufficient water for camp purposes on the ground, and there will be little trouble in developing a milling supply when it is needed. The new owners propose to develop the property on an extensive scale just as soon as the preliminaries are arranged.

VISITS MODERN CAMP.

J. T. Hood, cashier of the Miners' and Merchants' bank and treasurer of the Modern Mining company, drove out to the works in company with President N. A. Centers and returned very much pleased with the outlook. Upon being seen by a Review representative he spoke freely upon the favorable

CORONADO MINING CO.

Will Develop the McLean Group Near Metcalf.

The Clifton Copper Era chronicles the incorporation of the Coronado Mining company, which has been formed for the purpose of taking over the McLean group of claims near Metcalf. The authorized capital of the company is \$2,000,000, with shares at a par value of \$10 each. The officers of the company are as follows: W. B. Thompson, president; John K. Erskine, Jr., vice president; H. S. Anderson, treasurer; W. J. Palmer, secretary; Josiah H. Drummond, Jr., clerk. The directors are W. B. Thompson, John K. Erskine, Jr., and H. S. Anderson. The W. B. Thompson company of Boston is the fiscal agent. The prospectus of the company makes the following statement:

"The property controlled by the company consists of twenty-one claims containing 200 acres and is located near Metcalf and Coronado, seven miles north of Clifton, Arizona. The development of the McLean group has already been done proves that it is more than probable that the famous Coronado vein, from which the Arizona Copper company is producing a large tonnage of

high grade ore, immediately to the west, continues into the property controlled by this company. It is proposed to fully develop the ore bodies, already discovered, by shafts, tunnels, etc., and to thoroughly prospect the claims. We believe that this will show that the ore bodies are large and valuable. The principal development on the property is on the Emerald claim where a shaft has exposed sulphide ore assaying from 8 to 10 per cent copper. In a tunnel 90 feet below the collar of this shaft, sulphide ore assaying over 5 per cent copper has been found. We believe this to be the most important undeveloped sulphide ground not owned by the other large companies (Arizona Copper company, Detroit Copper company and Shannon Copper company) operating in the district. For the purpose of making additional payments and furnishing the necessary money for the development, we offer 25,000 shares of the full paid, non-assessable stock in this company at three dollars a share.

The Thompson investment company, financed the Shannon Copper company, which is now recognized as one of the strongest companies operating in Arizona. There is no question of the ability of the Thompson company to raise all the money necessary for the development and equipment of the property, which is in a tested district, and some of the claims are adjoining some of the best known producing ground in the camp. The Era believes that the Coronado company has a bright future before it, and will in a few years be one of the producing companies of this district.

IN TEVISTON DISTRICT

New York Man Will Develop Mines Near Old Fort Bowie.

W. N. Failing and little son of Buffalo, N. Y., were in El Paso last Saturday en route to Teviston, Ariz., where Mr. Failing has extensive gold mining interests.

Speaking of his mission to a reporter of the News Mr. Failing said: "I have eight claims in the Teviston district about old Fort Bowie in Cochise county, which I regard as very valuable. Only two, the Mountain Rose and the Upper Spring, have been developed much as yet and principally assessment work having been done on the other claims, but I am going to spend several months in developing this trip, making El Paso my headquarters, and develop all of my claims thoroughly. If the results are what I am sure they will be I shall arrange at once for extensive mining."

Mr. Failing is also largely interested about Guadalupe, Ariz., where he has purchased 10,000 acres of land. This property is in an old district and he is sinking two wells there. The ground also contains asphalt and he is preparing to develop that.

SHAFT HOUSE BURNED.

H. E. Armitage came in from the Hercules group of mines, White Plancha district, Thursday, says the Prescott Courier. Last Monday, about noon, he had the misfortune to lose his shaft house by fire, the origin of which must have been spontaneous combustion, as no one was there and no fire was left there. The shaft house was destroyed, the gasoline tanks exploded and some damage was done to the hoist. Mr. Armitage was not surprised at the mishap, as the heat of the sun is intense in that section at this season. A piece of steel left in the sun gets so hot that it actually makes a hissing sound when any moisture comes in contact with it. When the fire occurred Mr. Armitage was preparing to start another drill hole, having drilled at the point where the fire was to a depth of 700 feet through formations carrying iron, copper and gold. The mishap will delay operations for several weeks. It is a matter of regret that such an accident occurred, but this will not long retard the development of these promising properties.

MINING NOTES.

The Val Minto Mining company, which was incorporated recently by J. H. Hatmaker of Buffalo, N. Y., has twelve or fourteen men employed developing a group of six claims in Minto valley district north of Granite mountain. The claims were formerly owned by J. H. Lee of the American ranch and they are near the Bald Butte claim, which was worked a few years ago by Mr. Mergenthaler, inventor of the linotype. The veins are gold bearing.—Journal-Miner.

It is reported that the Octave company has struck a body of extremely rich ore at the 900-foot level of their mine. The ore is said to go as high as \$200 per ton and the ore body is five feet wide, though it is probable that the entire width of the body does not give the above values. The company has another shaft on its property 1,100 feet deep at which depth there is an ore body eight feet in width which goes \$26 per ton in gold. A superabundance of water has been struck in the latter shaft.—Journal-Miner.

Superintendent J. Berrie of the Hudson Gold Mining company arrived in Prescott yesterday from the company's properties. He reports that a large body of sulphide ore has been opened in the Alice mine. The ore runs high in gold and carries a good percentage of copper. The vein is over eight feet thick. A good body of high grade ore has also been encountered in the Lincoln tunnel in the past few days.—Courier.

The Cuban Republic.

Conditions in Cuba have been much improved since the Americans took control of affairs, and since they are now free to manage their own affairs the question arises as to their ability to maintain self-government. The experiment will be watched with much interest. In this case it is a worthy experiment, but if you are sickly it is not advisable to experiment with any of the many so-called health restorers that have no merit. The only way to recover your health is to perfect the digestion, keep the bowels open and the blood pure. For this purpose you cannot find a better or more reliable medicine than Hostetter's Stomach Bitters. Try it for heartburn, belching, indigestion, dyspepsia, constipation, biliousness or malaria, fever and ague. It never fails to cure.

AMUSEMENTS

Tomorrow night the Curtiss Comedy company will enter upon the seventh week of its present engagement at the park. Thus far they have really astonished the theater-goers by their excellent productions of meritorious plays, each one being presented in such an admirable manner as to win the highest praise from every theater-goer. Mr. Curtiss has fully won the record of bringing the largest and best organization to Phoenix, and the public at large hold him in the highest esteem, both as a gentleman and actor-manager. During the company's engagement here the people have been perfectly satisfied with the entertainments offered by Manager Curtiss, but this extraordinary artist has a big surprise in store for the patrons of the park. The present company numbers twenty-three people, which is considered an extra large aggregation playing a summer engagement, but Mr. Curtiss, who only has the pleasure of his patrons at heart, has augmented his present company by securing a number of high

specialties. These clever people will no doubt prove a very interesting addition to the already splendid company. Mr. Curtiss is presenting, and the theater-goers will undoubtedly appreciate Mr. Curtiss' efforts to give them a superior entertainment, more so than they have ever had at the park, and fill the cozy little theater at every performance. Tomorrow night the delightful English comedy drama "Mabel Heath" will be presented, and as all the old favorites will be seen in the cast a first-class performance can be looked for.

PIONEER BAND CONCERT.

The Pioneer band will render the following programme at the city hall plaza Sunday evening at 8 p. m.: March, "The Matinee Girl," J. T. Hall. Selection, "The Burgomaster," from Gustav Linder's musical comedy, Melchie. Serenade, "La Paloma," Spanish serenade, Yradier. "Buddy's Dream," Ethiopian characteristic, Gus W. Bernard. Waltz, "The Charleston Waltzes," Sousa. "The Birds and the Brook," R. M. Stultz.

Medley overture, "Blaze Away," M. F. Smith. Descriptive, introducing "Flora, I Am Your Adorer," "In the Valley of Kentucky," "My Honolulu Lu," "In the Sweet Summer Time," "If Time Was Money I'd Be a Millionaire," "A Rose With a Broken Stem," "Blaze Away March."

March, "Dress Parade," Charles Wood. George E. Goize, musical director.

CONCERT.

The Curtiss Comedy company will give a grand open air concert at the park tonight. Professor Edward Peters has arranged the following programme: March, "Invincible Eagles," Sousa. Medley, "Popular Texas," Boettger. Serenade, Ripley. Overture, "Bridal Rose," Lavallee. Selection, "Macbeth," Clause. Musical conglomeration, "Humoresque," Wheeler. Gavotte, "Lady Love," Rockwell. Selection, "Marianita," Wallace. Waltz, "Quo Vadis," Bowers. March, "Citizen and Soldier," Taylor. Concert commences at 7:30.

MINING AT MORRISTOWN

Great Activity, Recent Sales and Others Soon to Follow.

Morristown, Ariz., July 26.—(Special correspondence of The Republican.)—Nothing much is being said regarding this small hamlet but at the same time there is great activity in the mining business, and indications now point to many new developments which will in the very near future bring Morrilltown greatly to the front.

The Garcia mine, which has been closed down for two years, is now running full blast, the workings all being in good ore, and the ten-stamp mill already on the ground is being renovated and will very soon be crushing the big piles of ore now accumulating on the dumps.

The White Cloud and Exposition camps under the management of Mr. H. William Stevens, are working to their utmost capacities, while at the Eddy camp just three miles away to the north they are drifting on the 200-foot level in high grade sulphides. Mr. Hall, the superintendent, says that sinking will continue until the 500-foot level is reached, by which time sufficient ground will have been opened up to insure a steady working camp.

P. E. Dalton of Phoenix was in town Friday to write up a few "five policies," and incidentally to attend to a few preliminaries concerning the resumption of work on the Desert Group, only five miles away.

The sale of the Winters group to Chicago parties, mention of which was made in a recent issue of The Republican, has greatly strengthened the faith of local holders and has also had a tendency to make investors hurry up pending negotiations.

Charles Shellenberger, superintendent of the Riverside Copper company, has just received word from his people that work will begin at once on their property which lies on the west bank of the Hassayampa river only two miles from Morrilltown.

Emory W. Fisher went out to the Copperopolis country with two gentlemen from Salt Lake City and when they returned Mr. Fisher quietly told the writer that the sale would be made. Colonel R. M. Atkinson is in Chicago on important business and when he returns work will be begun in earnest on the Winters group.

Heavy rains have fallen this week throughout the entire district and everything seems prosperous and the people contented. C. J.

AFRAID HE'D BE CARRIED PAST.

The conductors' room at the Broad street station is a place where good railroad stories are told. The men go in there after their train arrives, await orders and often swap yarns. The following was told at a recent session: "A long time ago when trains traveled more slowly than they do now and 'way' trains were common, two high officials got on, intending to ride out about thirty miles. They had a lot to say to each other and the train, which stopped at every woodpile, worried them a good deal. An Irishman near the engine heard a few words and decided to add to their annoyance by his persistence in asking the name of every station the train stopped at. After they had politely answered his

Contagious Blood Poison

Is the name sometimes given to what is generally known as the BAD DIS-EASE. It is not confined to dens of vice or the lower classes. The purest and best people are sometimes infected with this awful malady through handling the clothing, drinking from the same vessels, using the same toilet articles, or otherwise coming in contact with persons who have contracted it.

It begins usually with a little blister or sore, then swelling in the groins, a red eruption breaks out on the body, sores and ulcers appear in the month, the throat becomes ulcerated, the hair, eye brows and lashes fall out; the blood becoming more contaminated, copper colored spots and pustular eruptions and sores appear upon different parts of the body, and the poison even destroys the bones.

S. S. S. is a specific for this loathsome disease, and cures it even in the worst forms. It is a perfect antidote for the powerful virus that pollutes the blood and penetrates to all parts of the system. Unless you get this poison out of your blood it will ruin you, and bring disgrace and disease upon your children, for it can be transmitted from parent to child. S. S. S. contains no mercury or potash, but is guaranteed a strictly vegetable compound.

Write for our free home treatment book and learn all about Contagious Blood Poison. If you want medical advice give us a history of your case, and our physicians will furnish all the information you wish without any charge whatever.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

off this time. You have some non-union supers here tonight, and I am the walking delegate, and I am calling that actor down just at present until you adjust matters."—Baltimore American.

STERILIZED BARBER SHOP.

A Famous Shop in the Carrollton Hotel, Baltimore, Maryland.

The barber shop in the Carrollton hotel, Baltimore, sterilizes everything it uses in the shop. The sterilizing is done by heat. The towels, the razors, the strops, the soap, the combs and brushes are all sterilized before being used on a customer. Where there is no sterilization, have the barber use Newbro's Herpicide. It kills the dandruff germ, and it is an antiseptic for the scalp, and for the face after shaving. All leading barbers everywhere appreciate these potent facts about Herpicide and they use it. "Destroy the cause, you remove the effect."

WINDOW SIGNS IN JAPAN.

Here are some English signs in the windows of shops in Japan. "The All Country Boot and Shoe, Small or Fine Wares." "Old Curious." "Horseshoe maked Instruct to Horse Leech." "Cut Hair Shop." "If you Want to sell Watch, I will sell. Yes, sir, we will. We will. Come at my shop. Watchmaker." "Hatter Native Country." "Antemetic of Nausea Marina."—Boston Journal.

A LIBERAL OFFER.

The undersigned will give a free sample of Chamberlain's Stomach and Liver Tablets to any one wanting a reliable remedy for disorders of the stomach, biliousness or constipation. This is a new remedy and a good one. Elvey & Hulett, druggists.

REFLECTIONS OF A BACHELOR.

Matrimony rhymes mightily easily with matrimony. The more a woman learns to think the less she seems like a woman. It takes a good woman to think that every other woman is not enough to want to steal her husband. No matter how much experience a man has had with women, there isn't one on earth who can't make him feel when he runs up against her, that he

REPULSIVE FEATURES.

Blackheads, pimples, greasy faces and muddy complexions, which are so common among women, especially girls at a certain age, destroying beauty, disfiguring and making repulsive, features which would otherwise appear attractive and refined, indicate that the liver is out of order. An occasional dose of Herbine will cleanse the bowels, regulate the liver and so establish a clear, healthy complexion. 50c at Elvey & Hulett's, the Live Druggists.

"Good men, you know, are scarce." "Yes, I know, and even bad men have to make themselves so at times."—Boston Courier.

VALUABLE TIME SAVED.

Slight injuries often disable a man and cause several days' loss of time and when blood poison develops, sometimes result in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment. When applied to cuts, bruises and burns it causes them to heal quickly and without maturation, and prevents any danger of blood poisoning. For sale by Elvey & Hulett, druggists.
